

BHAV 450 : Advanced Counseling Techniques

Credits 5

Quarter Offered Spring

This course provides a comprehensive survey of the major contemporary theories of counseling, as well as their implications for practice. Core topics such as historical background, key concepts, the counseling process, counseling techniques and procedures, multicultural perspectives, and evaluation are examined for each theory. Students are given the opportunity to conceptualize selected case studies, decide on appropriate counseling interventions, and practice a variety of techniques that are commonly used in counseling practice. This class may include students from multiple sections.

Must be seeking a Bachelor of Applied Science in Behavioral Healthcare degree to enroll. If interested, visit pencol.edu/bas

Prerequisites

Behavioral Healthcare BAS Program Admittance

Course Outcomes

- Define, implement, and practice major theoretical models of counseling and rapport building
- Explain a systems approach to conceptualizing clients cases
