

INFO 101 : Research in Health and Social Sciences

Credits 2

Quarter Offered Fall, Spring, Summer

Designed to help you succeed on college research assignments. This course will emphasize developing research questions and search strategies; searching relevant subject databases; synthesizing information from sources; and citing sources in APA format. Readings and assignments focus on issues and contexts specific to Health and Social Sciences. Students will demonstrate core 'information competencies' by developing a research project on a topic relevant to the health sciences or social sciences. This class may include students from multiple sections.

Course Outcomes

Clearly articulate a need for health information.

Locate multiple relevant sources of health information for a particular need.

Evaluate information and its sources using a set of criteria.

Apply information from a variety of sources to a specific purpose.

Reference information sources using APA style.
