AMATH 121 : Applied Math for Professional & Tech Programs I

Credits 5

Quarter Offered Fall, Winter, Spring, Summer

College mathematics used in professional and technical programs. Content includes mathematical modeling and applications employing numerical operations; measurements; geometry; linear and nonlinear equations; exponent, radical, and polynomial operations; functions; formulas; plane analytical geometry with graphing; and an introduction to trigonometry. This class may include students from multiple sections.

Prerequisites

MATH 63 or acceptable placement test score

Course Outcomes

Simplify numerical expressions.

Convert and compute measurements.

Simplify algebraic expressions.

Solve equations and formulas.

Solve and graph linear functions.

Analyze and interpret statistical data.

Apply elementary geometric concepts.

Apply elementary right triangle trigonometry concepts.
