

CMAA 101 : Basic Medical Assisting Skills

This course is part of the registered Medical Assistant Apprenticeship program offered through the Washington Association for Community Health. Students learn entry-level medical assisting skills such as patient engagement, working with electronic health records, medical sepsis and OSHA standards, taking vital signs, collecting lab specimens, assisting with patient exams, preparing immunizations and giving injections and urinalysis. Each module also contains an introduction to the anatomy and physiology of a related body system. This class may include students from multiple sections.

Prerequisites

Acceptance into WACH Apprenticeship Program
