Associate in Applied Science – Transfer (AAS-T) Degree

The AAS-T degree combines the competencies earned in a professional and technical program with college-level general education courses. The Associate in Applied Science – Transfer (AAS-T) degree is designed for transfer to specific four-year colleges and universities for students pursing specific professional/technical programs. The AAS-T degree is not designed for general transfer.

Students who wish to transfer to four-year colleges, universities, or technical institutions in professional or technical programs should obtain the institution's catalog and review its requirements for junior-year standing in the program to which they would like to transfer. Faculty advisors will work with you to develop an educational plan to meet requirements for transfer to the institution of your choice.

Degree Requirements

- Completion of the courses required for each professional and technical program
- Communications, computation, and human relations courses as required by each program
- A minimum of 90 credits
- A cumulative grade point average of 2.0 or above

Certificate Requirements

See individual program listings for specifics.
