

NATR 260 : Natural Resources Internship

Credits 1-5

Quarter Offered Spring

Learn from natural resource professionals. This class provides opportunities for Natural Resource students to learn and apply new skills in a workplace and/or field experience setting. This class may include students from multiple sections.

Course Outcomes

- Apply skills, concepts, and procedures used in the field and workplace setting.
- Identify individual strengths and weaknesses related to workplace skills and behaviors.
- Demonstrate effective communication and interpersonal behaviors in the workplace.
- Demonstrate initiative and time management in a workplace setting.
