Program Description

This one year program is designed to provide the student with a broad exposure to criminal justice theory and process as well as contemporary issues and problems. It consists of selected Criminal Justice courses and general education requirements. All of these courses are also required for the Associate in Applied Science (AAS) degree in Criminal Justice so that students who wish to continue their education may pursue the two year degree program. Successful completion of this program leads to a certificate in Criminal Justice.

Program Length: 3 Quarters

Program Code: CJLCJ45

Career Opportunities and Earnings

The employment outlook is very good with job growth expected to continue over the next decade. Graduates typically can be employed by local and federal law enforcement, juvenile and adult correction facilities, and private and corporate security/investigation firms. Successful employment in some positions is dependent upon passing competitive entrance examinations and meeting various medical requirements. Good performance and additional training can enhance opportunities for advancement. The demand for persons trained in criminal justice is expected to remain strong over the next several years

Prospective criminal justice students should be aware of the fact that criminal justice and security employment candidates are subject to extensive background checks that may include drug screening, polygraph testing, physical and psychological examinations, and oral and/or written proficiency examinations. Successful completion of the program does not necessarily guarantee that students will obtain employment in the field of criminal justice. The goal of the program is to provide students with an educational opportunity that prepares them for the rigors of employment competition within the scope of criminal justice career planning. The criminal justice program manager will work diligently to assist qualified students in finding meaningful employment.
