

Phlebotomy

The Phlebotomy certificate program is designed to prepare students for entry-level work in various healthcare settings. Students are required to have access to computer, internet, and browser. Medical Assistant - Phlebotomists are credentialed under RCW 18.360 and are defined as “a person...who performs capillary, venous, and arterial invasive procedures for blood withdrawal and other functions...under the supervision of a health care practitioner.” MA – P credential holders may also perform CLIA-waived tests, moderate and high complexity tests with training, and electrocardiograms.
